2024-2026 BIENNIUM

Climate Empower: community empowerment and innovation for gender-transformative climate action

Funding: US\$1,000,000

Climate change impacts women and girls and their sexual and reproductive health and rights.

- Access to food, water, shelter and livelihoods is disrupted.
- Child marriage and intimate partner violence increases.

Goal: Prevent climate-induced gender based-violence (GBV) and other harmful practices through interwoven innovative approaches and community-driven interventions in Madagascar, Mozambique and South Sudan.

Approximately 500,000 direct and indirect beneficiaries will be equipped with knowledge of the impacts of climate change and trained to identify and initiate solutions to build resilience against climate-induced GBV.

Laaha: a virtual safe space for women and girls

Funding: US\$750,000

1 in 3 women experience violence in their lifetime and 12 million girls are married before they reach the age of 18 – violence that is exponentially made worse during humanitarian crises.

Goal: Increase knowledge on GBV and sexual and reproductive health and reduce isolation by building safe spheres of support through peer-to-peer connection.

Reach one million women and girls across the world with content created in 20 languages by 2026.

for every child

Ending Child Marriage: a prograME to accelerate global action Phase III

Funding: US\$1,500,000

Globally, 21% of girls are married while they are still children, robbing them of their childhood.

Goal: Scale up the Global Programme's activities to protect and empower girls, and ultimately help bring an end to the practice of child marriage.

The program's priority is engaging adolescent girls as key agents of change in 12 countries which account for almost half of the world's child marriage.
